FEBRUARY 2009

## SOF Op Center & Training Facilities

W. M. Jordan in Newport News, VA won a \$95.9 million contract to design- and build special operations forces facilities at Naval Air Station Oceana's Dam Neck Annex in Virginia Beach, VA. This project will provide consolidated and efficiently configured command operations facilities, and this contract contains options, which will bring the total value of the contract to \$101.6 million if exercised. This contract was competitively procured with 6 offers received by the Naval Facilities Engineering Command, Mid-Atlantic in Norfolk, VA (N40085-08-C-9684).

The contract provides for the

design and construction of a two-story SOF P899 operations facility, a single-story addition to the second floor of Building 368, a one-story P768 SOF operational training facility, and a single-story addition to Building 310. Work is expected to be complete by July 2010. Source:

## Energy Audits Pay for Themselves?

Energy audits are expensive and time consuming. So why would a Manager use their limited resources to have one performed in the first place? The bottom line is the **BOTTOM LINE**. Simply put an effective energy audit and effective solution matrix provides for as much as a 60% return on the dollar.
